

I enjoy the variety of the programs carried on XM radio and pay for the FREEDOM of listening to what I want when I want. I feel with the backlash and fines issued to broadcasters like Howard Stern and infinity broadcasting as of late that these services are even more important to secure our first admendment rights. Please reject the NAB petition 04-160 as it unfairly limits services that I wish to recieve by MY choice. Thank You
Respectively,
Eric Dawson
